WEIKLE & CO.

REDACTED - FOR PUBLIC INSPECTION

June 30, 2014

Marlene H. Dortch, Secretary Federal Communications Commission Office of the Secretary 445 12th St, SW Washington, D.C. 20554

> RE: WC Docket No. 10-90, WC Docket No. 11-42 FCC Form 481 – Carrier Annual Reporting Ellerbe Telephone Company

Dear Secretary:

This FCC Form 481- Carrier Annual Reporting is being submitted on behalf of Ellerbe Telephone Company in accordance with FCC Rules 54.313 and 54.422. There are two copies of a Redacted – For Public Inspection version. In addition there is one copy with financial information marked as confidential information in accordance with a November 16, 2012 Protective Order, DA12-1857. A Redacted – For Public Inspection version is also being filed via ECFS.

If there are any questions, I can be reached at 704.699.9451.

Sincerely,

Jerry Weikle

Jenny Weish

Consultant to Ellerbe Telephone Company

Ellerbe Telephone Initial Five Year Service Quality Improvement Plan For the Calendar Years 2015-2019 Line 100

Discussion

Ellerbe Telephone is an ETC designated by the North Carolina Utilities Commission and is submitting its initial five year service quality improvement plan (Plan) as required by 47 CFR § 54.313(a)(1) and 54.202 (a)(1)(ii). Ellerbe Telephone is an incumbent carrier with a service area in the state of North Carolina, with 1,500 access lines served as of 12/31/2013 in one exchange. Ellerbe Telephone is a rate-of-return (RoR) regulated carrier.

The five year plan reflected herein represents Ellerbe Telephone's ongoing efforts to expand high quality, reasonably-priced broadband services throughout its service area. Ellerbe Telephone has generated a five-year plan in compliance with the Commission's rules, although the out years in the plan (years 3-5) are highly speculative in nature and thus will likely change, sometimes substantially, in future progress updates filed with the Commission. Reasons for the speculative nature of years 3-5 of the Plan include (1) the unknown nature of universal service support in those years, in light of the Commission's USF/ICC Transformation Order, (2) the difficulty in forecasting customer counts, demand, and other factors directly affecting network demand, and (3) the rapid pace of technological innovations in the communications industry makes it difficult to plan more than one or two years in advance with any degree of accuracy.

The Plan presented herein by necessity includes expenditures not directly tied to "improvements or upgrades" of Ellerbe Telephone's network, such as amounts for the maintenance and upkeep of existing telecommunications plant. In order for the Commission to accurately consider the capital and operating expenditures as related to and supported by the federal universal service programs, these types of costs are critical for such an understanding.

Initial Five Year Service Quality Improvement and Investment Plan

Ellerbe Telephone's service quality improvement and investment plan consists of two major components: (1) capital expenditures it sees as necessary to meet the voice and broadband public interest obligations as adopted by the Commission, state service quality and network build out requirements, and general upkeep and maintenance of its network; and (2) operating expenditures necessary to meet the same obligations.

As shown on the following pages, Ellerbe Telephone will work to place fiber in its distribution route to start serving homes and businesses. This will allow customers to receive a more reliable service and faster broadband speeds. Ellerbe Telephone will replace its current TDM based switch with a softswitch to provide more reliable services. Ellerbe Telephone will work to maintain its network in order to keep it operating efficiently and to avoid problems from impacting customers.

Considerations

The investment and service quality improvement plans discussed above were generated, in part, to meet or exceed the broadband public interest obligations adopted by the Commission:

230478NC100

- Speed at least 4 mbps downstream and 1 mbps upstream
- Latency 100mS or less, sufficient for real-time applications
- Capacity Unlimited capacity per month
- As an RoR regulated carrier, Ellerbe Telephone is required pursuant to 47 CFR § 54.313(f)(1)(i) to provide broadband service at 4 mbps/1 mbps upon reasonable request and within a reasonable timeframe. When customers request broadband service, employees check engineering records to determine if there are limitations on speeds. Where possible two copper pairs can be bonded to increase speeds for customers. Ellerbe Telephone currently is able to provide 4 mbps/1 mbps to the majority of customers now. It is estimated that approximately 50 customers are not able to receive 4 mbps/1 mbps primarily due to long copper loop lengths.
- Ellerbe Telephone determines into which parts of its network are feasible to upgrade and increase capacity by analyzing relevant factors such as population, demand, costs, likely revenues, regulatory requirements, and availability of work force and materials.

Ellerbe Telephone

Service Quality Standards and Consumer Protection Rules Compliance Explanation Line 510

Certification

Ellerbe Telephone Company certifies that it complies with applicable service quality standards and consumer protection rules for both voice services and broadband services.

Service Quality

Ellerbe Telephone Company is regulated by the North Carolina Utilities Commission (NCUC). The NCUC has service quality rules in effect that Ellerbe must comply with for voice services and the rules are found in NCUC Chapter 9, Rule R9-8. The NCUC does not have rules in place regarding broadband service quality.

Here is a link to Chapter 9 rules located on the NCUC website: http://www.ncuc.net/ncrules/Chapter09.pdf

Rule R9-8 requires that certain service objectives be met and that company results be reported to the NCUC on a quarterly basis within 45 days after the end of each quarter. Ellerbe has set up procedures and processes to remain in compliance with the Rule R9-8 objectives. This includes maintaining procedures and processes to record monthly results, tabulate them, and report them to the NCUC.

During the calendar year 2013, Ellerbe met all required NCUC service quality objectives. The NCUC objectives are listed below:

Rule R9-8. Service objectives for regulated local exchange telephone companies and competing local providers (CLPs).

(a) <u>Service Objectives</u>. Each regulated local exchange telephone company and CLP shall perform and provide service in accordance with the following uniform service objectives:

| Measure No. | Description | Objective |
|-------------|---------------------------------|--|
| 1 | Intraoffice completion rate | 99% or more |
| 2 | Interoffice completion rate | 98% or more |
| 3 | EAS transmission loss | 95% or more between 2 and 10 dB |
| 4 | EAS trunk noise | 95% or more 30 dBrnc or less |
| 5 | Operator "0" answertime | 90% or more of calls answered within 10 seconds or ASA of 6 seconds |
| 6 | Directory assistance answertime | 85% or more of calls answered within 10 seconds or ASA of 6 seconds |

| 7 | Business office answertime | ASA of 30 seconds |
|----|---|---|
| 8 | Repair service answertime | ASA of 30 seconds |
| 9 | Initial customer trouble reports | 4.75 or less per 100 total access lines |
| 10 | Repeat reports | 1.0 report or less per 100 total access lines |
| 11 | Out-of-service troubles cleared within 24 Hours | 95% or more |
| 12 | Regular service orders completed within 5 working days | 90% or more |
| 13 | New service installation appointments not met for Company reasons | 5% or less |
| 14 | New service held orders not completed within 30 days | 0.1% or less of total access lines |

Consumer Protection

Ellerbe Telephone Company is committed to maintain the privacy of customer information. In addition to protecting personal information the company is obligated to protect information on how customers use their services. Ellerbe Telephone Company follows all requirements the FCC has mandated concerning Customer Proprietary Network Information (CPNI). As required, Ellerbe files annual CPNI compliance certifications with the FCC by March 1 each year.

Ellerbe Telephone Company also has an Identity Theft Prevention Program in place to comply with Red Flag Identity Theft prevention rules. This program ensures that no information pertaining to our customers is compromised and that information from new customers is accurate and does not represent a stolen identity.

There are no NCUC or state rules in place for broadband consumer protection. Ellerbe Telephone Company does follow federal laws relating to broadband service. Ellerbe Telephone Company does publicly disclose broadband terms and prices for customers.

Ellerbe Telephone Functionality in Emergency Situations Line 610

Backup/Emergency Power

Ellerbe Telephone's main Central Office has both battery backup and permanent mounted generator backup. When commercial power fails, batteries carry all central office equipment until the generator comes on within one minute of power failure. If the generator fails to come on, batteries can carry the central office for 12-16 hours.

One remote switch has both battery backup and permanent mounted generator backup. When commercial power fails, batteries carry all central office equipment until the generator comes on within one minute of power failure. If the generator fails to come on, batteries can carry the equipment for 16-18 hours.

Both generators at the main Central Office and the remote switch are propane powered and can run for 5-7 days on their fuel supply.

All small remote switches have battery backup that can carry the equipment for 6-10 hours in the event of commercial power failure. They also have ports where a portable generator will be connected to supply power to the remote. These portable generators are gasoline powered and can run for 4-6 hours on their fuel supply. During the event of an emergency, these portable generators are resupplied with fuel on a regular basis.

Network Facilities

Ellerbe is located in the Wilmington, NC LATA and connects to an AT&T Central Office in Rockingham, NC to connect to the Laurinburg, NC tandem. Ellerbe has redundant fiber facilities that connect to the Rockingham office that are on different geographic routes. During times of an emergency or damage to facilities, traffic is rerouted over redundant facilities as needed.

Priority Line Assignments

Ellerbe's Central Office switch is a Genband DMS-10. This switch is configured with a certain number "priority" line assignments in each line assignment group. Ellerbe assigns local municipal, fire, EMS, and rescue telephone numbers to these priority line assignment positions. Should the switch get in an overload status because of a traffic spike, it automatically prioritizes these positions to remain in service before non-priority line assignments.

Ellerbe Telephone Voice Services Rate Comparability Line 1010

The FCC released a Public Notice on March 20, 2014 (DA 14-384) which listed the urban average rate as \$20.46 for residential customers. The same Public Notice listed the rate that is a reasonably comparable benchmark at \$46.96.

Ellerbe Telephone charges all residential customers \$15.14 plus a federal Subscriber Line Charge of \$6.50 for monthly service with unlimited local calling. The total of these charges is \$21.64 which is less than the reasonably comparable benchmark of \$46.96.

Because of this, Ellerbe Telephone is able to certify that it's pricing of fixed voice service is no more than two standard deviations above the applicable national average urban rate for voice service.

Ellerbe Telephone Lifeline Terms and Conditions Line 1210

As a state regulated wireline carrier, Ellerbe Telephone offers Lifeline service in accordance with FCC rules and terms and conditions in its tariff. The terms and conditions of the tariff are included starting on the next page of this file.

Minutes of Use

Each Lifeline customer has unlimited local usage and is able to make local calls at no additional charge. Each Lifeline customer is also able to receive unlimited local and long distance calls at no additional charge.

Toll Charges

Each Lifeline customer is able to receive toll blocking to avoid incurring unexpected toll charges. In the event the customer would like to make toll calls then the customer is able to choose which long distance company they would like to use and then choose which rate plan is best for them.

FILED N.C. UTILITIES COMMISSION

- a. The Lifeline Program is designed to increase the availability of telecommunication services to low income subscribers by providing a credit to monthly recurring local service to qualifying residential subscribers. Basic terms and conditions are in compliance with the FCC's rules found in CFR § 54.410. Customers must be certified by the appropriate state agency that they participate in one of the following programs: Medicaid; Supplemental Nutrition Assistance Program (SNAP), formerly known as food stamps; Supplemental Security Income (SSI); Federal Public Housing Assistance (Section 8); Low-Income Home Energy Assistance Program (LIHEAP); National School Lunch Program's free lunch program; Temporary Assistance for Needy Families (TANF); or, be able to provide proof of household income which is at or below 135% of the annual Federal Poverty Guidelines for all States. Such certification must be provided to the Company. Specific terms and conditions are as prescribed by the North Carolina Utilities Commission and are set forth in this Tariff.
- b. Lifeline is supported by federal and state universal support mechanisms.
- c. Federal baseline support of \$9.25 is available to each Lifeline Service and is passed through to the subscriber The total Lifeline credit available to an eligible customer in North Carolina is \$9.25. The amount of credit will not exceed the charge for local service, which includes access line, touch tone service, the Subscriber line charge and local usage.

(c) (c)

S3.11.2 : REGULATIONS

a. General

(1)

- (2) One low income credit is available per household and is applicable to the primary residential connection only. The name subscriber must be a current recipient of the low income assistance programs as identified in Section 3.11.2b following.
- (3) A lifeline customer may subscribe to any local service offering available to other residential customers

- (4)Customized Code Restriction Option 2 as specified in Section 13.18.1e., and the Billed Number Screening as specified in Section 13.19 of this tariff, will be offered at no charge to the lifeline subscribers to establish toll blocking,
- The deposit requirement is not applicable to a Lifeline customer who subscribes to (5) toll blocking. If a Lifeline customer removes toll blocking prior to establishing an acceptable credit history, a deposit may be required.
- (6)A Lifeline subscriber's local service will not be disconnected for non-payment of regulated toll charges. Local service may be denied for non-payment of local calls in accordance with Section 2 of this Tariff. Access to toll service may be denied for non-payment of regulated tolls. In such cases Customized Code Restriction Option 2 and Billed Number Screening will be applied to the Lifeline Subscribers service at no charge. A lifeline subscriber's request for reconnection of local service will not be denied if the service was previously denied for non-payment of toll charges as long as all outstanding local charges are paid.
- (7) Partial payments made by customers will be applied first to local service charges, then to toll charges.
- (8) The presubscribed Interexchange Carrier Charge (PICC) will not be billed to Lifeline customers who subscribe to Customized Code Restriction Option 2 for toll blocking and who do not presubscribe to a long distance carrier.

Ъ. Eligibility

(1)To be eligible for a Lifeline credit, a customer must be a current recipient of any one of the following low income assistance programs.

REDACTED - FOR PUBLIC INSPECTION

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Ellerbe Telephone Company and Subsidiary Ellerbe, North Carolina

Report on the Financial Statements

We have audited the accompanying consolidated balance sheets of Ellerbe Telephone Company and Subsidiary (the "Company") as of December 31, 2013 and 2012, and the related consolidated statements of stockholder's equity, income, comprehensive income, and cash flows for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Ellerbe Telephone Company and Subsidiary as of December 31, 2013 and 2012 and the results of their operations and their cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Other information

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedules on pages 23 through 25 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit, the supplementary schedules are fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Governmental Auditing Standards

In accordance with Government Auditing Standards, we have also issued a report dated June 9, 2014 on our consideration of Ellerbe Telephone Company and Subsidiary's internal controls over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Ellerbe Telephone Company and Subsidiary's internal control over financial reporting and compliance.

Eddie Carrick, CPA Lexington, North Carolina
